

# DORIC

## DC223 Pneumatic Door Closer Installation Instructions

1) Ensure door opens and closes freely.

2) Fix Jamb Bracket to Hinge Jamb (See Fig.1) using fixing screws provided.

3) Prior to inserting Connecting Pin into Jamb Bracket, make sure the closer is in a hold open position (See Fig.2 & Fig.3). This will give proper tension setting for closer.

4) Close door and align end of Closer Body to give appropriate position for fixing Door Bracket (See Fig.4). Mark screw holes and fix Door Bracket to Top Door Rail.

5) Connect the closer to Door Bracket.

6) Release Hold Open Washer and move it to it's normal operating position behind the Lugs (See Fig.5).

7) Adjust closing speed by turning screw at end of Closer Body (See Fig.6)
