Doric Sliding Door Handle Range

Doric

Doric is the largest privately owned hardware manufacturer in Australia supplying innovative and industry leading **door and window h**ardware for Residential, Commercial, Timber, Security and Architectural applications.

If you need any type of hardware for windows and doors talk to us at Doric! We also can create customised product to give you a unique offering and competitive advantage in the market.

Welcome...

For more than 30 years Doric has been designing and manufacturing architectural hardware to meet and exceed the expectations of our clients. Over the past 10 years many would agree the company has undergone a true coming of age, our products, design and manufacturing processes have evolved under the direction of forward thinking management to create a hub of ingenuity and creativity.

In house development of new manufacturing technologies and experimentation with alternative materials has resulted in the emergence of a range of truly innovative products. Innovative in features, function and style. Some would say the unique design style of Doric hardware has revolutionised the window and door industry starting a trend towards user focused design and contemporary styling.

This range of sliding door locks exhibits some of our design team's signature items from the early DS980 Murray, which revolutionized the patio door lock market, to the DS920 which offers corrosion resistance never before seen in patio door locks and a style unequalled in Australian door furniture design. These are products we are very proud to put our name to.

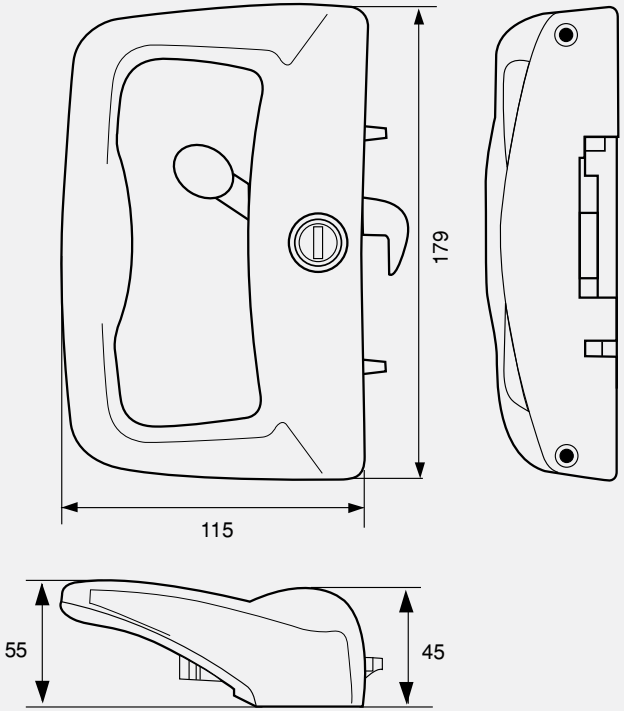
FINISHES 42
ONE KEY SOLUTION 43

Suttor

DS900 *By Richard Zitzelsperger*



DS900 SUTTOR

DESIGNER STATEMENT

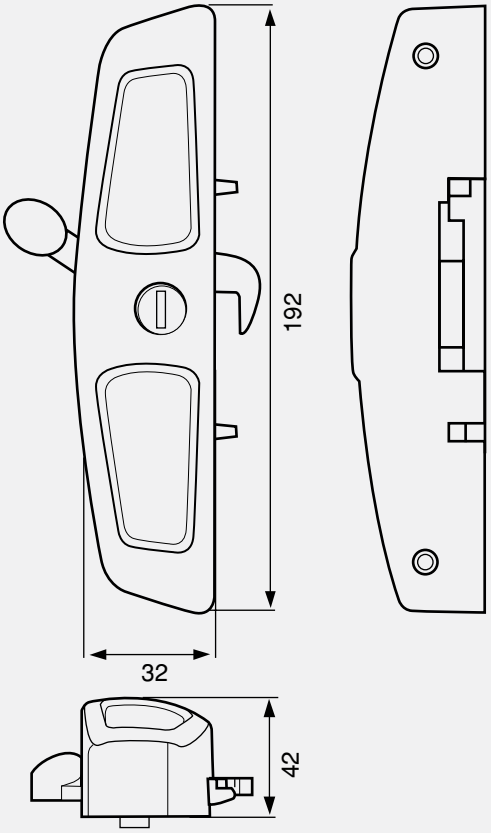
Strong and contemporary. The clear geometric lines of the Suttor represent a clean modern style. The polymer infill at the rear of the grab handle creates a highly tactile and comfortable grip area. Contrasted with the handle colour the infill can create a striking feature adding to overall sophistication of this bold handle design.

Richard Zitzelsperger

P

Eildon

DS910 *By Richard Zitzelsperger*



DS910 EILDON

DESIGNER STATEMENT

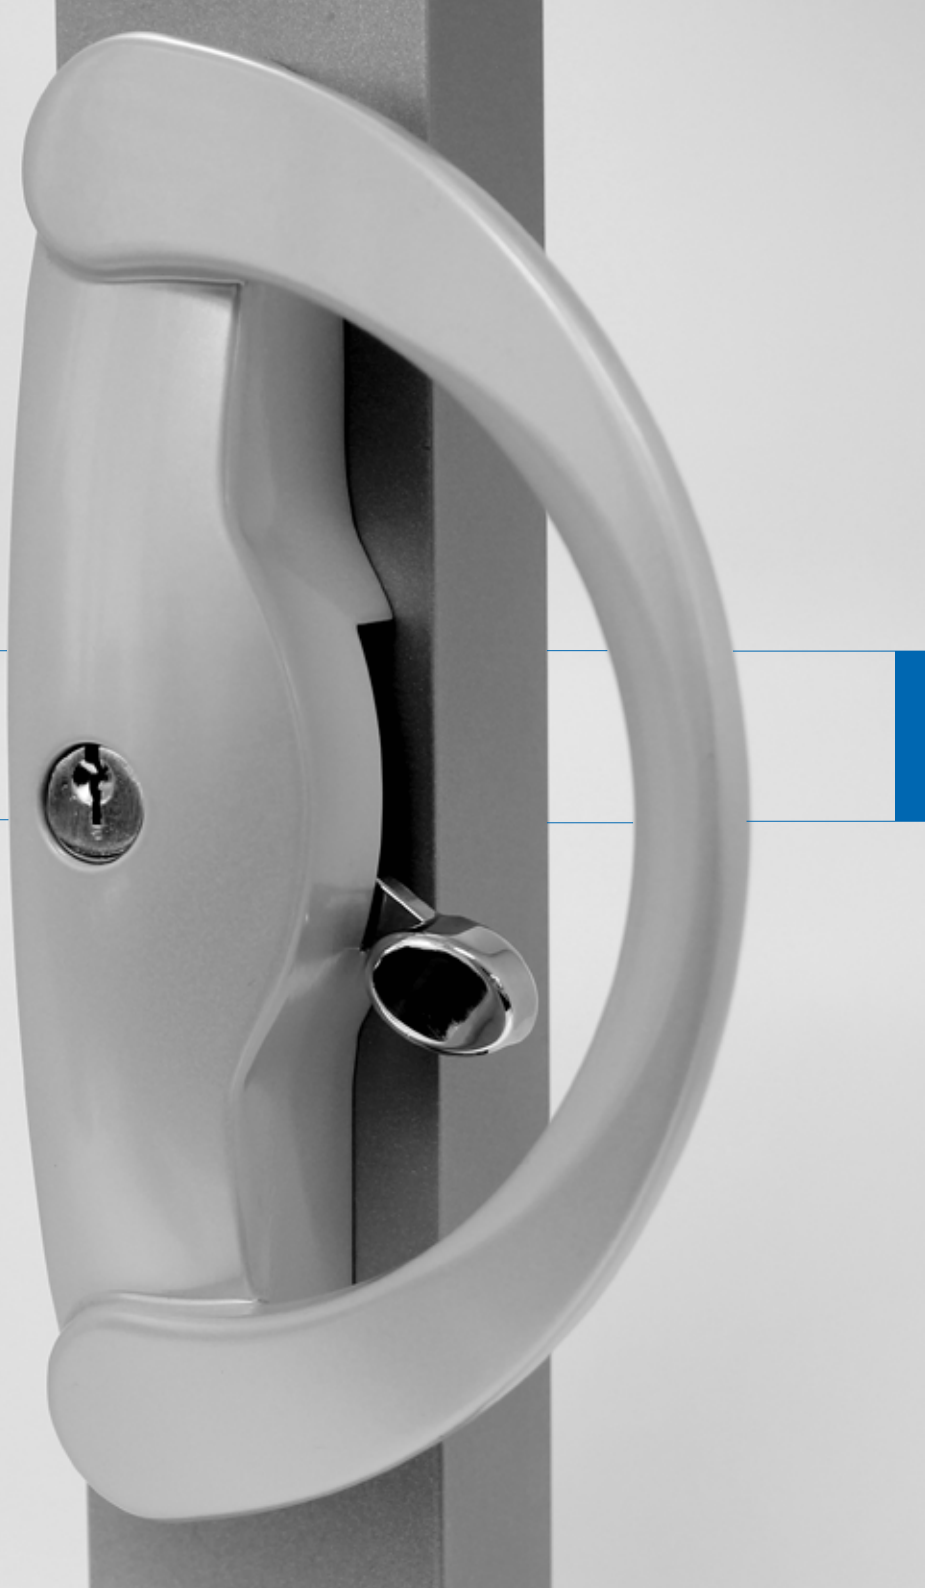
Simple and elegant. The first non-grab handle deadlock on the sliding patio market. The Eildon is ergonomically designed for the exclusion of a grab handle while remaining a symmetric shape. The deep pockets facilitate maximum grip for such a compact design. The ‘hard edge’ styling appreciates incorporation into contemporary building design with non-intrusive hardware.

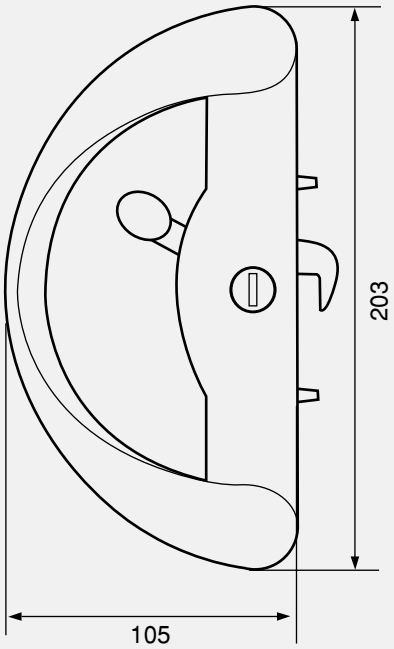
Richard Zitzelsperger

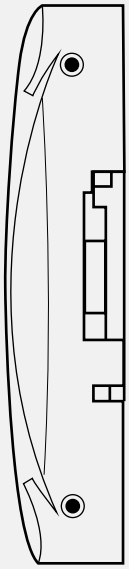
P

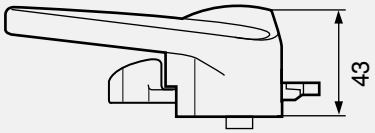
Waikato

DS920 *By Richard Zitzelsperger*









DS920 WAIKATO

DESIGNER STATEMENT

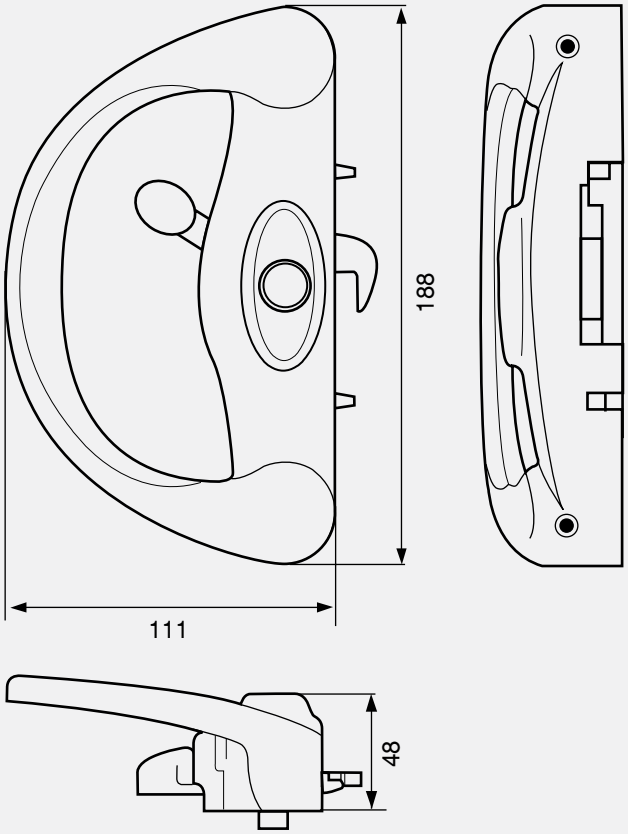
Truly timeless. The Waikato combines form and feeling. A handle incorporating smooth contemporary curves that compliment today's housing design trends. Smooth, but robust, the handle grip has a 'scollop highlight' which gives a striking third dimension to the design while remaining comfortable to use.

Richard Zitzelsperger

P Z SS

Wilton

DS930 *By Richard Zitzelsperger*



DS930 WILTON

DESIGNER STATEMENT

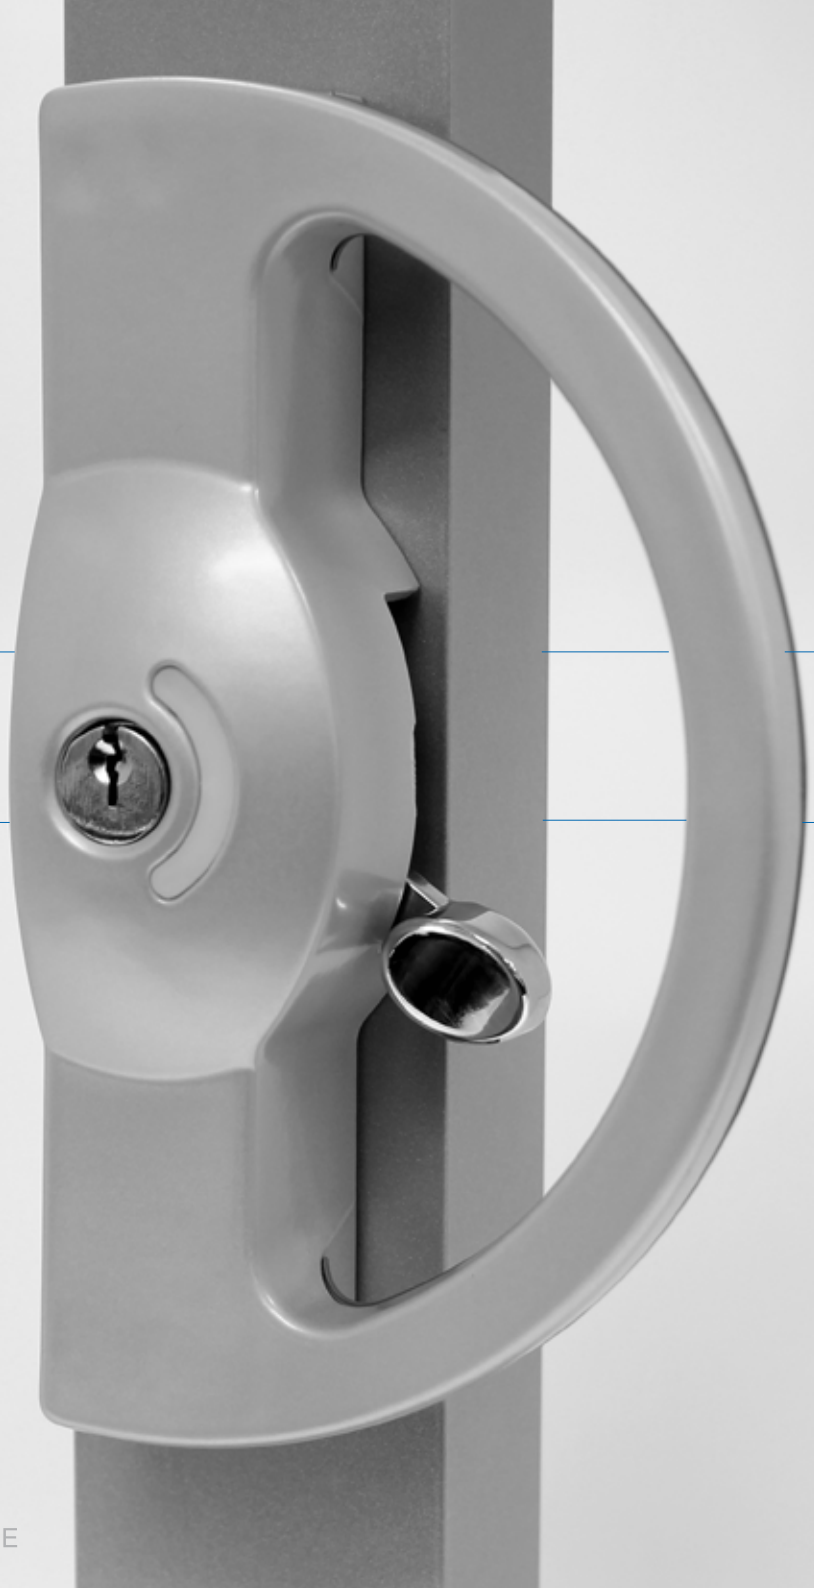
Trendy and unique. The Wilton combines Doric's unique curved style in a modern, functional design. The semantics of this handle make its use intuitive. Heavily radiused edges make this durable and strong design blend seamlessly in both commercial and residential applications.

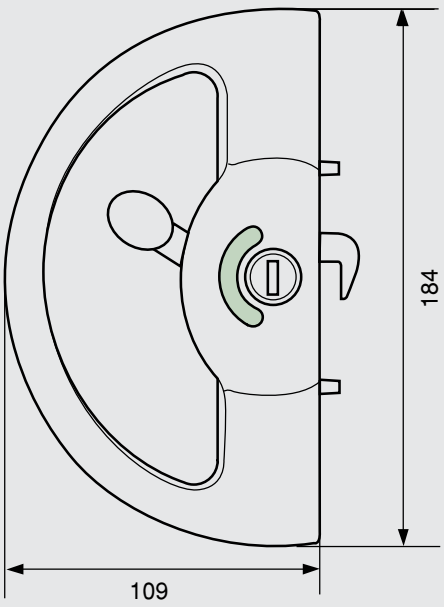
Richard Zitzelsperger

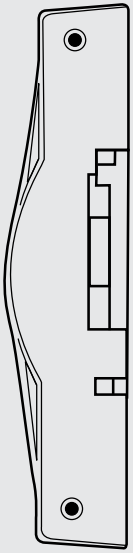
P

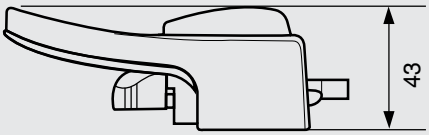
Murray

DS980 *By Carina Geradini*









DS980 MURRAY

DESIGNER STATEMENT

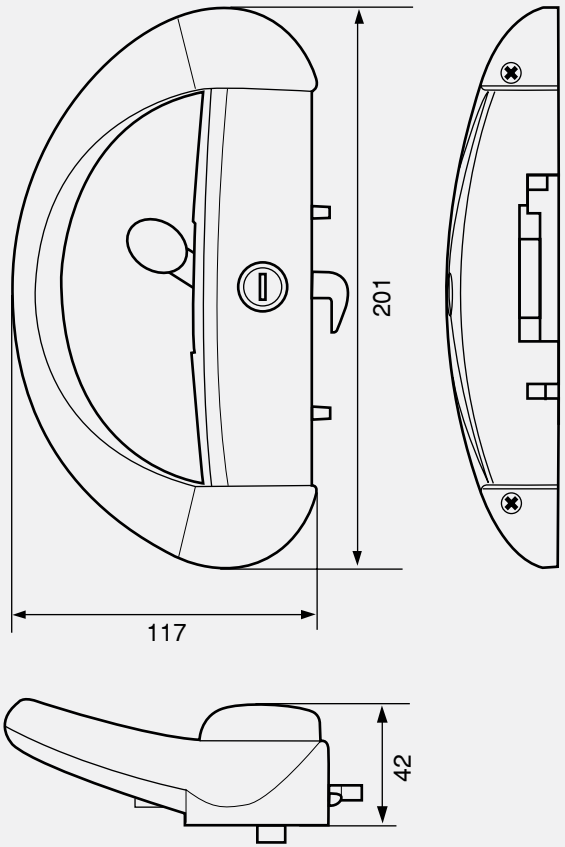
An ambitious contemporary handle design focused away from the then conventional ‘square form’. The ‘glow in the dark’ arc make the function of key location easier. The Murray is a refreshing design and is a true expression of form follows function.

Carina Geradinie

P

Baron

DS6100 *By Anthony Barbara*



DS6100 BARON

DESIGNER STATEMENT

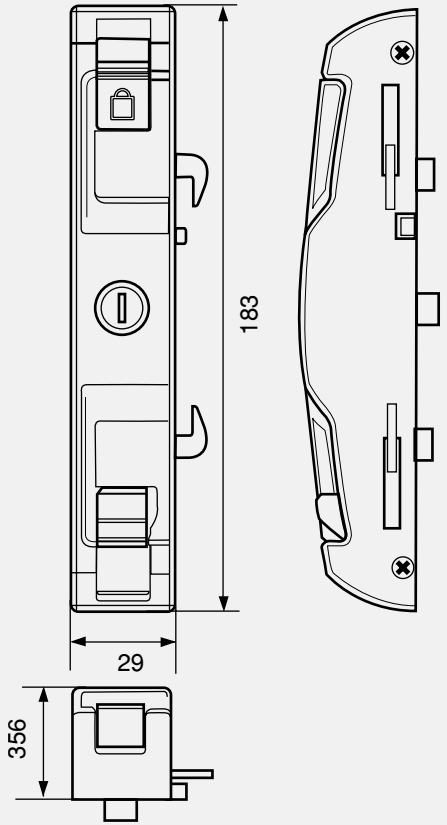
Based on a unique door hardware style, the Baron handle represents an interpretive design combining comfort, security and style. The curved grab handle and bold body design emphasises strength and security to encourage piece of mind.

Anthony Barbara

P

Alpine

DS2010 *By Mike Alchin*



DS2010 ALPINE

DESIGNER STATEMENT

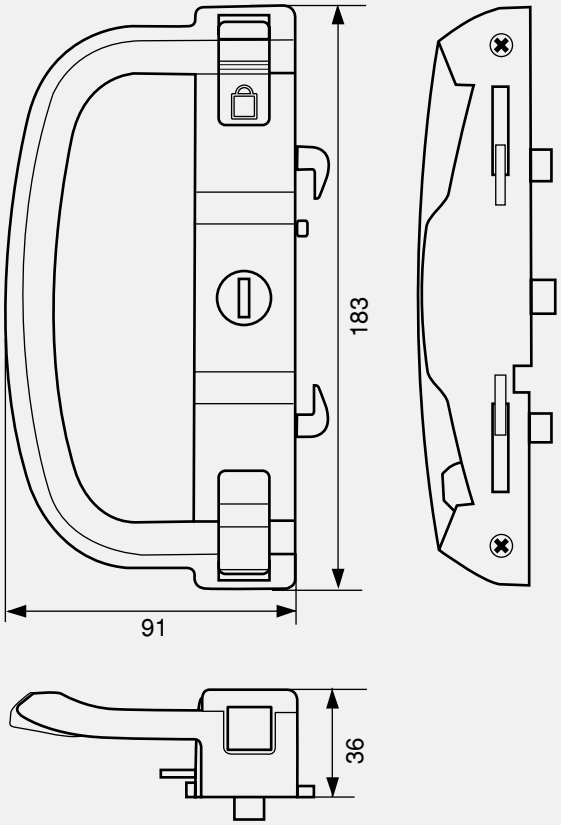
The Alpine is simplicity of design with minimalist intrusion. The low profile Alpine handle still offers sufficient grip for operation and is a standout model for multi-stacking sliders.

Mike Alchin

P Z

Snowy

DS2120 *By Mike Alchin*



DS2120 SNOWY

DESIGNER STATEMENT

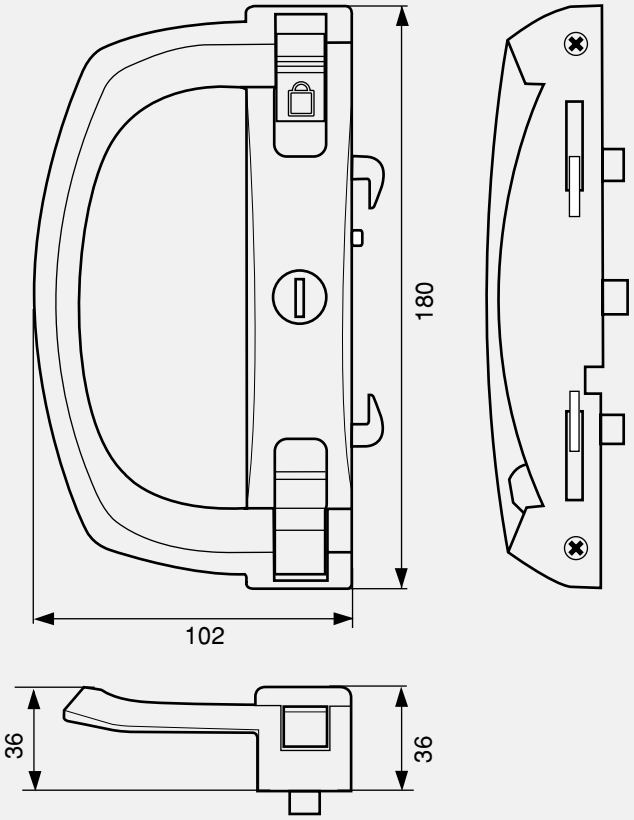
Based on a unique door hardware style, the Snowy handle represents an interpretive design combining comfort, security and style. The hard edged curved grab handle and bold body design emphasises strength and security to encourage piece of mind. Chrome inserts add a touch of sophistication for a unique and modern look.

Mike Alchin

Z

Bisarra

DS2130 *By Luke Sartori*



DS2130 BISARRA

DESIGNER STATEMENT

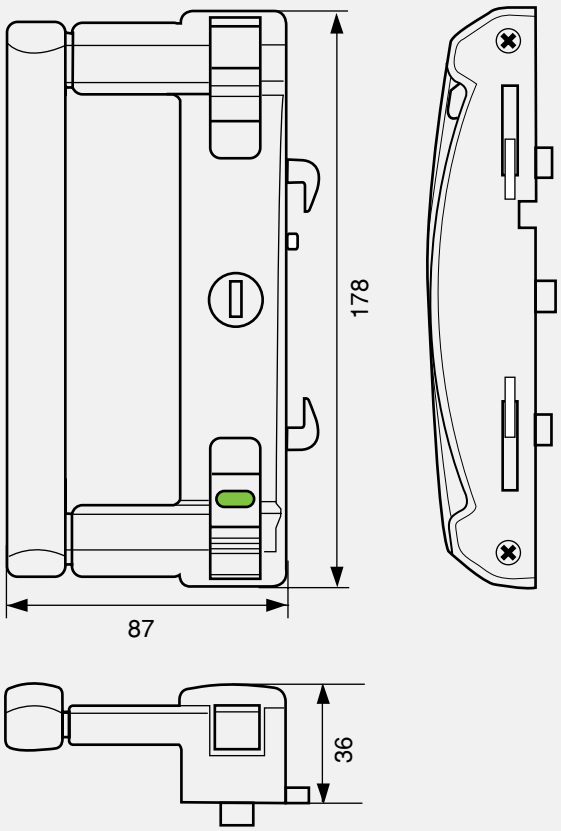
Evolving from the Snowy style, the Bisarra handle represents smoothness, security and style. It takes the squarely look from the Snowy Handle to modify it further to obtain uniqueness in style. The chrome inserts add a touch of sophistication for a unique and modern look.

Luke Sartori

Z

Stawell

DS2140 *By David Winston*



DS2140 STAWELL

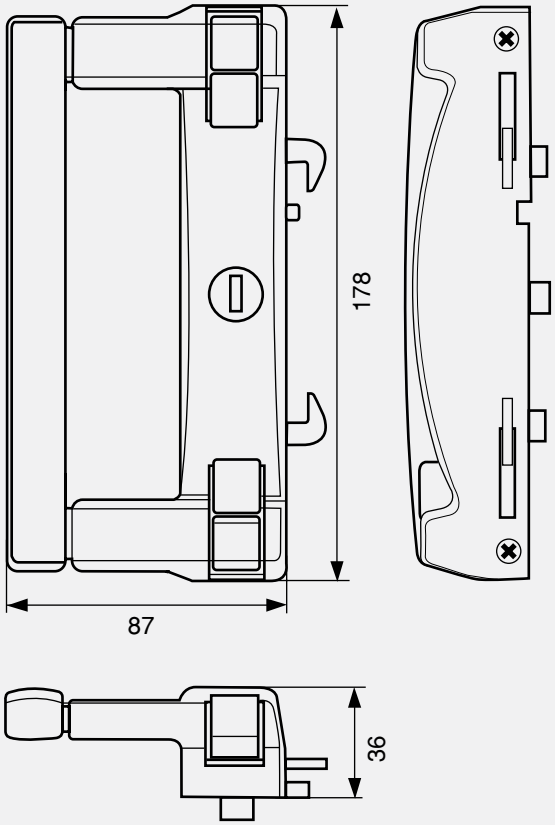
DESIGNER STATEMENT

The Stawell is typical of contemporary bordi definiti design. Crisp edges tracing curves but with clear function and comfort of use at its heart. The Stawell is a design which will have a place in modern developments for an extended lifetime.

David Winston

Avana

DS2150 *By David Winston*



DS2150 AVANA

DESIGNER STATEMENT

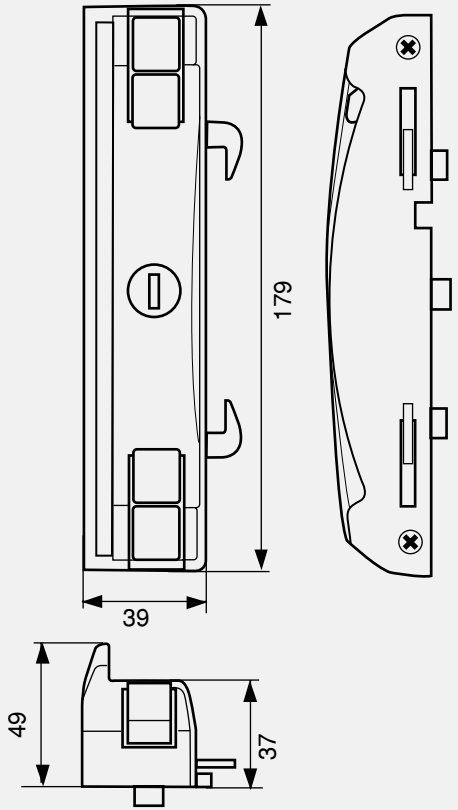
Blending the simplistic 60's square shape with a brush of bordi definiti design concepts, the Avana brings the square shape into the minimalist design feel with just that touch of modernism.

David Winston

Z

Navana

DS2160 *By Andrew Goggin*



DS2160 NAVANA

DESIGNER STATEMENT

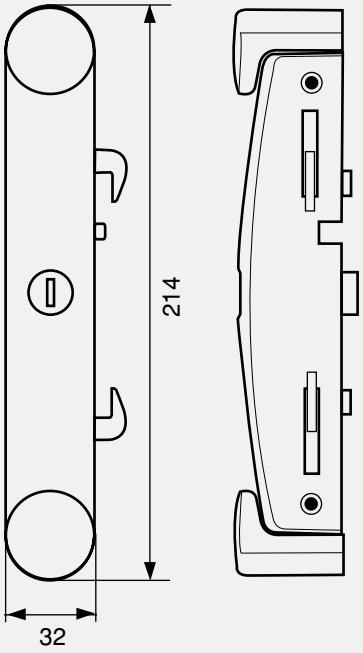
Many modern high rise developments are using the minimalist approach for space utilisation. The Navana is the complimentary sliding door hardware for this style. Uncomplicated clean design, not obstructing the view but easy to operate the Navana is an asset to modern fenestration design.

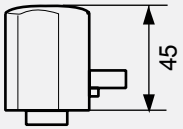
Andrew Goggin

Z

Tumut

DS3000 *By Perry Long*





DS3000 TUMUT

DESIGNER STATEMENT

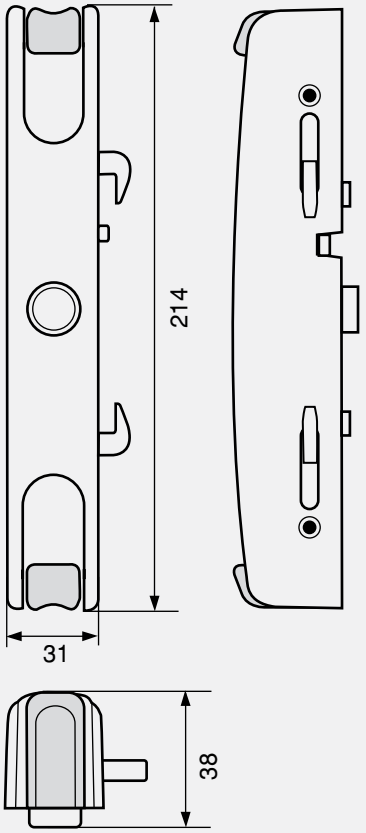
The shape of the Tumut handle explains itself in terms of its design vision. A simple and yet sophisticated modern body design. The circular shape of its actuaters is an eye-catching addition to compliment your modern architectural structure. The Tumut is a refreshing design and is a true expression of form that follows function.

Perry Long

SS

Carey

DS3010 *By Richard Zitzelsperger*



DS3010 CAREY

DESIGNER STATEMENT

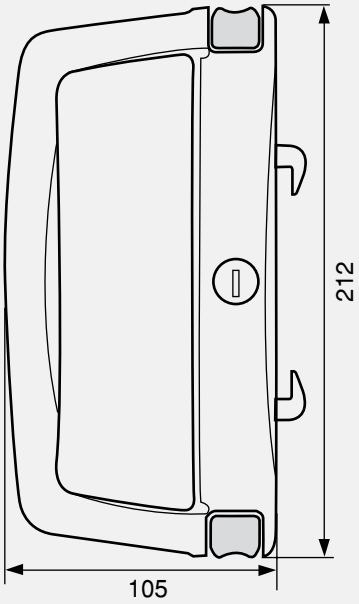
Unique shape design with character and an interesting flow on its body. The Carey exudes elegancy with a sleek body and classy aesthetics. It blends perfectly into any modern architectural application.

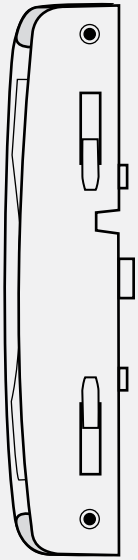
By Richard Zitzelsperger

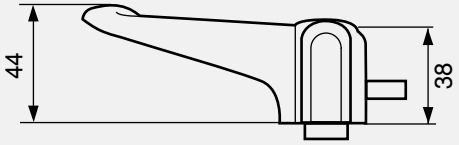
P Z

Timbarra

DS3030 *By Richard Zitzelsperger*







DS3030 TIMBARRA

DESIGNER STATEMENT

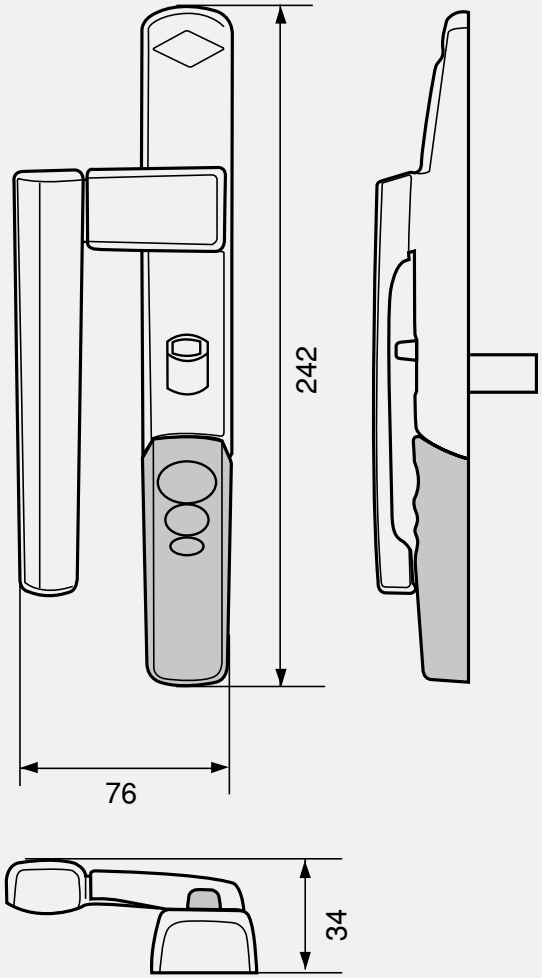
Classically modern. The Timbarra fuses contemporary aesthetics with classic semantics. Hard straight lines have been turned into soft and elegant curves that are more visually inviting.

By Richard Zitzelsperger

Z SS

Wooramel

MLCK729



MLCK729 Wooramel

LEVER OPERATING A SLIDING MORTICE LOCK

DESIGNER STATEMENT

Ambitious and attractive. The Wooramel fuses fixed handle aesthetics with lever handle functionality. Any architectural home or building would be increasingly more desirable with the Wooramel fitted to it's doors.

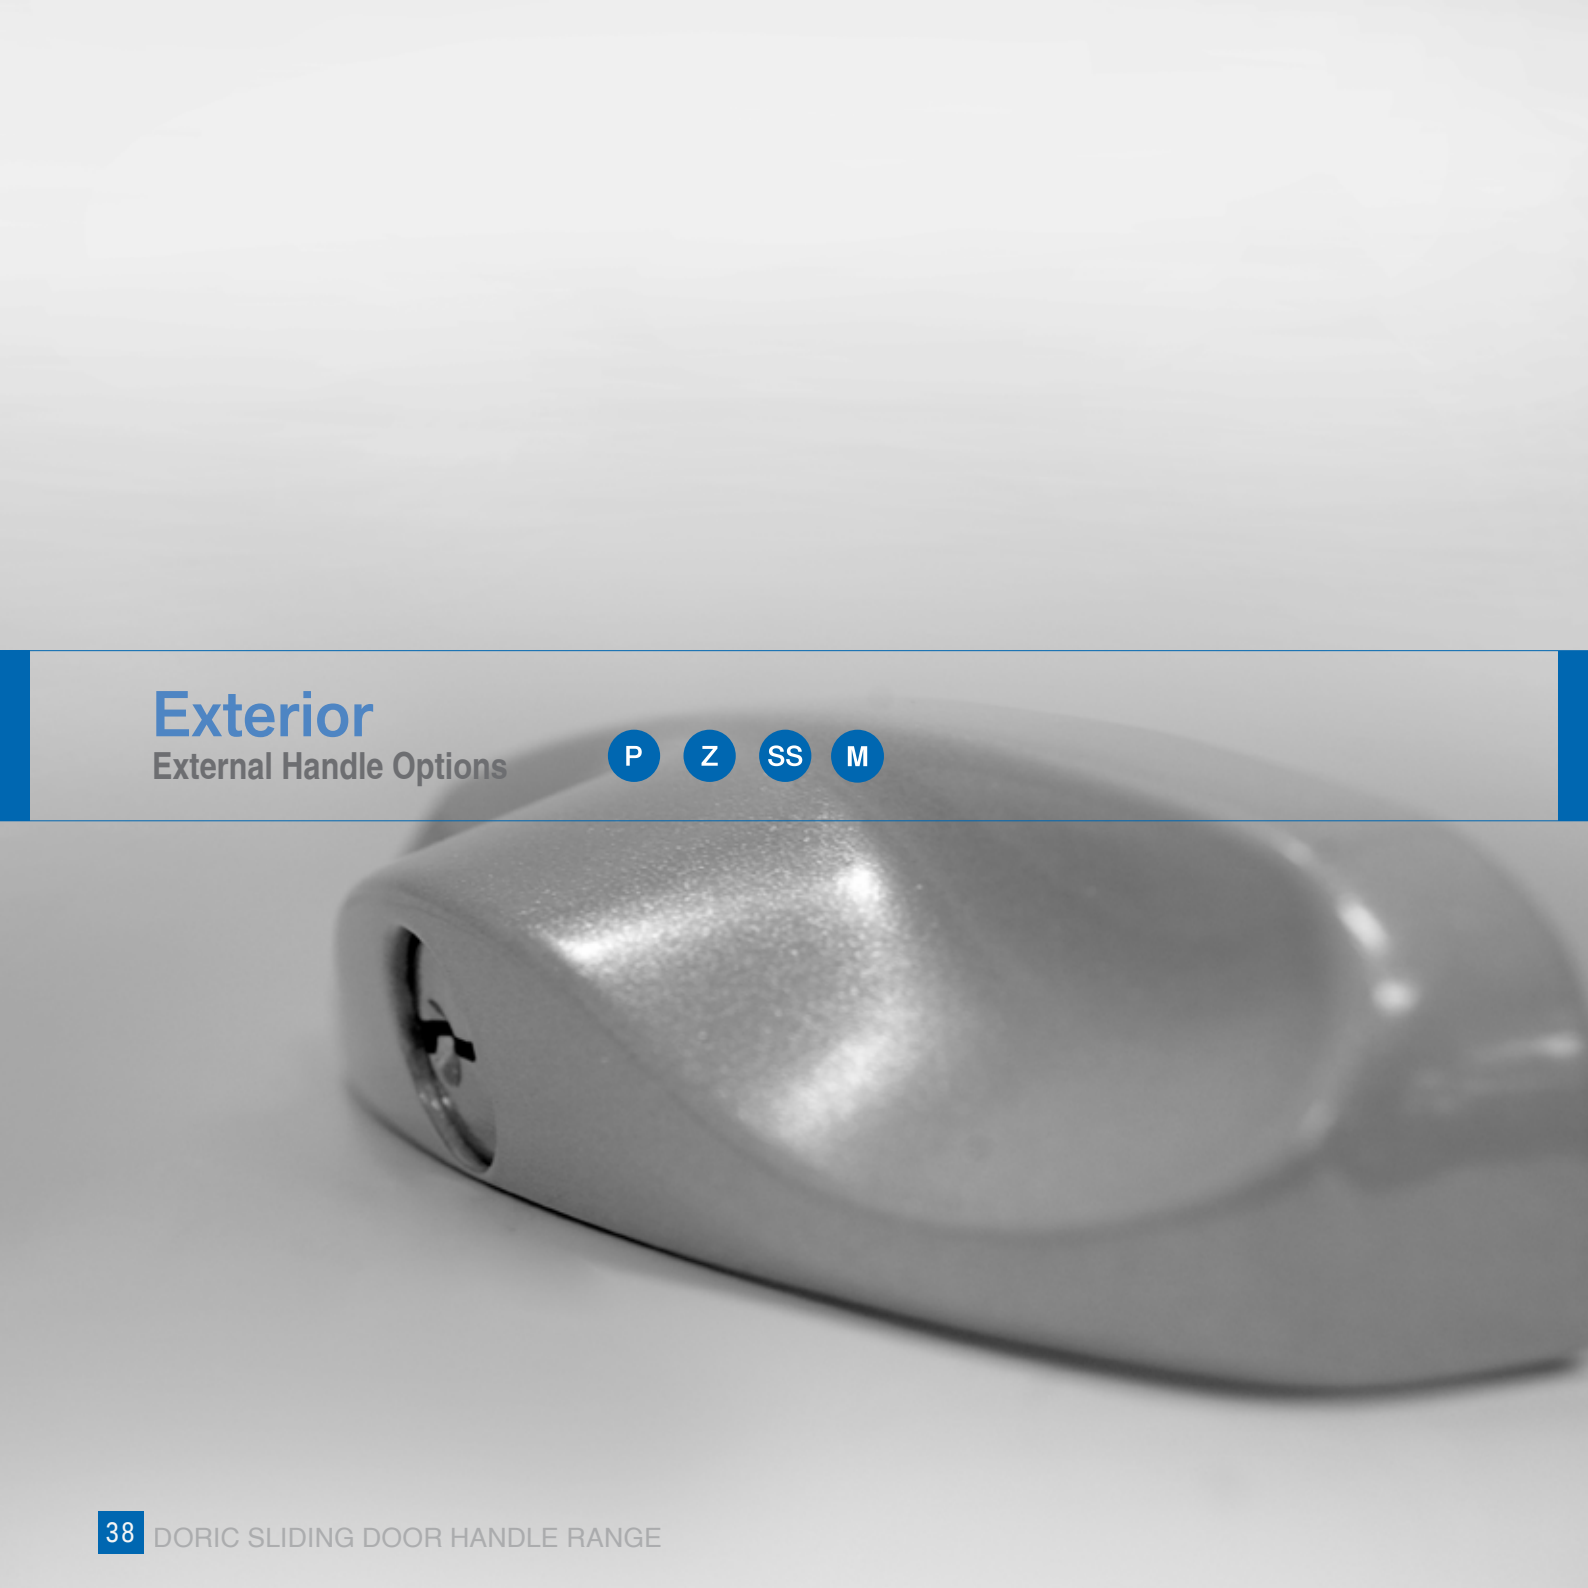
Mike Alchin

Note: external and internal Wooramel lever furniture is supplied as a complete set with the mortis lock.,

Exterior

External Handle Options

P Z SS M



DESIGNER STATEMENT

A range of styles, material and finish options, the exterior handle range compliments the internal handle designs shown previously. Slimline, curved and low profile options have been created and can be used with all internal handles. External handles for surface mounted locks can be selected to suit individual applications or styles.

Finishes

COLOUR TO COMPLIMENT DESIGN

Our products are available in a range of materials and finishes to compliment our unique product designs, making a lasting aesthetic statement for your project. We offer a range of finishes which can improve corrosion resistance. Our material and finish options include:

P POLESIUM™: An engineered polymer offering supreme corrosion resistance and value.

Z ZINC: A high strength material option able to be plated for a high impact finish.

SS 316 GRADE STAINLESS STEEL: The ultimate in corrosion resistance and architectural style.

409 GRADE STAINLESS STEEL: Matches 316 grade for corrosion and adds no "tea stain". The premium grade finish. Only available on selected products.

M METACOM™: A composite lightweight alloy. Good corrosion protection when processed with T3 treatment process. Finish should be powdercoat or similar.

Plating

- Bright Chrome ●
- Satin Chrome
- Satin Nickel
- Polished Brass ●

●*Available on zinc products by special order only.*

Natural

- Satin Stainless Steel
- Polished Stainless Steel

Powder Coating

We can powder coat products to your individual colour specifications.

One Key

Doric One Key™ Solution

A ONE KEY™ SOLUTION TO LOCKING

In order to create a complete locking system for your clients, commercial or residential, Doric has developed the “One Key™ Solution”. One key can unlock your clients entire home or office. All Doric locking products can be keyed alike with either wafer or pin cylinders. This provides a simple approach to security which allows peace of mind without the confusion or bulk of multiple keys.

The following are just some of our products which can be keyed alike.

- Patio Door Locks
- French Door Locks
- Security Door Locks
- Shopfront Locks
- Hinge Door Deadlocks
- Awning Window Locks
- Casement Window Locks
- Sliding Window Locks
- Double Hung Window Locks
