## DS776 & DS777 Awning & Casement Handles

Lockable and Non Lockable Window Handles

# Awning & Casement Window Handles

Doric is delighted to unveil the stylish new DS776 & DS777 Awning & Casement Window Handles.

This latest addition to the Doric window hardware family has been specifically designed to suit the requirements of the Australian & New Zealand Window and Door market.

This modern handle design is not only visually appealing it has been manufactured from a die-casted zinc body which delivers strength and durability, two characteristics that will ensure your piece of mind once the window has been secured.

Actuated by a stainless steel spring mechanism, these cam free awning & casement window handles will compliment all residential and commercial window applications.

Backed by the Doric 7 Year warranty and strength tested in accordance with highest of Australian Standards, the new DS776 & DS777 window handles are sure to compliment your next project.

## Residential & Commercial Friction Stays

Doric adjustable stays have been designed to suit most residential awning applications on aluminium, timber and uPVC windows.

- Manufactured from 304 Grade Stainless Steel
- Suitable for both Awning & Casement Windows
- Suitable for aluminium, timber and uPVC windows
- No handed design
- Available in 13mm & 16mm stack height
- Easy to install
- Polished surface for smoother operation and easy to clean

## Aluminium Friction Stays

The Doric FS Series friction stay has been designed to suit most residential awning applications on aluminium, timber and uPVC windows.

- Extruded aluminium profiles
- Spin riveted connection on all joints
- Factory set friction to eliminate adjustment on site
- Geometrically accurate to ensure smooth positive operation
- Powder coated to increase protection from corrosion

Model	Size	Stack Height (+ 1mm)	Max. Sash Height	Max. Sash Weight	Opening
FS0001	236mm	12mm	750mm	6 kg	45 deg
