

DN9001 | HEAVY DUTY ADJUSTABLE
RESTRICTOR STAY

DN9001 | HEAVY DUTY ADJUSTABLE RESTRICTOR STAY

The industry-first DN9001 is a high-performance stay featuring a unique, patented adjustment feature enabling self closing under load

Designed and tested to suit large awning windows in high rise commercial and residential buildings, the DN9001 Stay is a showcase of high-performance, strength and durability.

Manufactured from 304 Stainless Steel, the DN9001 has the ability to hold and release a window at a range of wind pressures specified.

When used in conjunction with Doric's patented DN9000 self-latching system, the DN9001 provides truly functional adjustability and "snap-shut operation," allowing windows to close under heavy wind load.

The DN9001 is suitable for windows that require restricted openings in accordance with the NCC to meet the requirements of Kids Don't Fly.

TESTING

Cycle tested to 100,000 + (zero performance loss)

Load Tested to 2500N per stay

Salt bath tested to 1000 hours

ADVANTAGES

3mm thick solid support arm

Heavy duty construction allows it to support large heavy sashes

Adjustable holding position locator (patented)

Snap-shut operation enables self-latching under heavy wind load

Compliant with Kids Don't Fly window restriction requirements

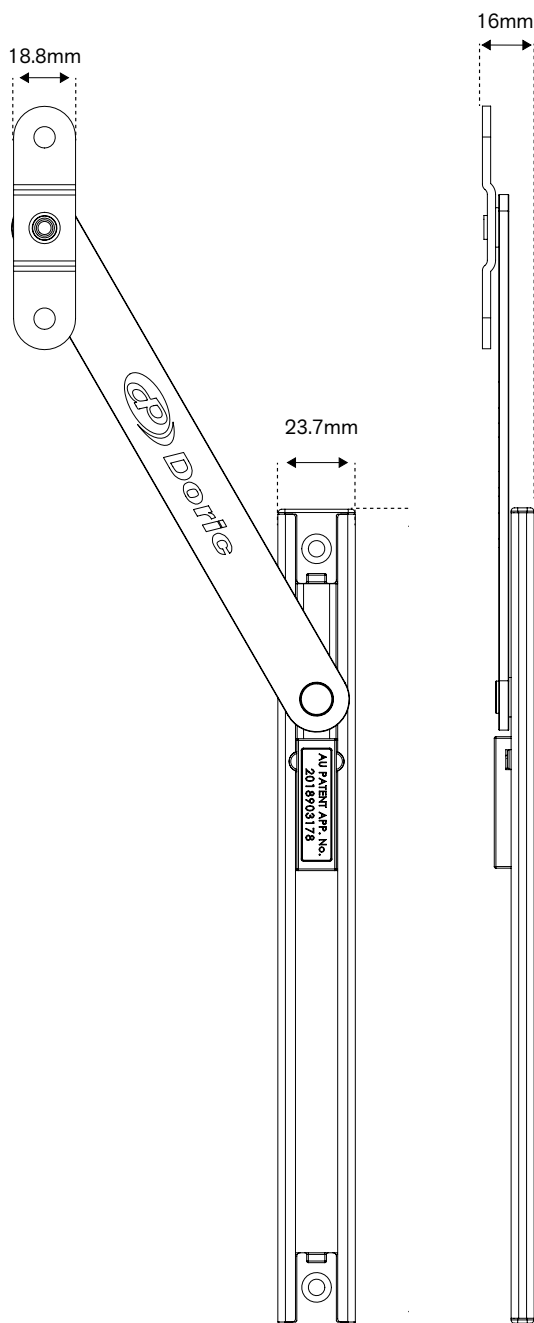

Can be used to retrofit windows when used in conjunction with the stand alone DN85

COLOURS

BRUSHED STAINLESS STEEL

LINE DRAWING

PRODUCT DETAILS

FURNITURE MATERIAL	304 Stainless Steel
FIXINGS	Not Included (high tensile screws recommended)
THICKNESS	3mm
