

PROTECTION | TAPE
BY DORIC

The Protection Tape provides protection of surface finishes against dirt, scratches and tool marks during handling, transport & storage, as well as forming & assembly.

The Novacel 4224 Protection Tape by Doric preserves the quality and perfect finish of your profiles without leaving residues, stains or marking once the tape is removed for a reliable and trouble-free solution.

This specially engineered adhesive stabilises on the surface after 48 hours and doesn't increase in adhesion for up to 12 months from application.

The white backing reflects the heat away from the adhesive-meaning unlike the black tape, it won't fall off or bake on in high temperatures because the adhesive warms up.

This is a surface protection product adapted to different structure of surfaces designed specifically for surface protection- not a pressure sensitive adhesive general day to day PVC tape.

ADVANTAGES

Stable adhesion - UV Stable Protection tape Outdoor life (12 months)

Easy removal (no blocking or tearing) because of stable adhesive and heat resistant backing

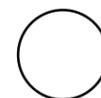

White backing for visual purposes and can also have notes written on in text

Robust - 100 micron film with increased abrasion resistance

COLOURS

WHITE

PROTECTED MATERIALS

BASE METALS

Cold rolled stainless steel, Zinc, Aluminium, Anodized aluminium

PRE-COATED METALS

Polyester (PES), Polyvinylidene fluoride (PVDF), Plastisol, Skinplates

PLASTICS

Polycarbonate (PC), Polymethyl methacrylate (Acrylic), Polyethylene terephthalate glycol (PETG), Polyvinyl chloride (PVC), Polystyrene (PS), Acrylonitrile butadiene styrene (ABS) - Styrene acrylonitrile (SAN) - Acrylonitrile styrene acrylate (ASA), Polyethylene (PE) - Polypropylene (PP)

PROFILES

White PVC, PVC with a decorative sheet, Painted Aluminium, PVC boards

DECORATIVE LAMINATES

Standard, Metallic finish

HOW TO ORDER

CODE	COLOUR	DESCRIPTION
9051842	White	48mm x 100m - (carton of 20)
9051843	White	96mm x 100m - (carton of 8)
