SLIDING PATIO DOOR LOCK

DS920 | WAIKATO SLIDING PATIO DOOR LOCK

An industry benchmark for aesthetic appeal, corrosion resistance and reliability.

Doric's range of Sliding Patio Door Locks, based on the proven Doric Universal OEM Chassis set an industry benchmark for aesthetic appeal, corrosion resistance and reliability.

Incorporating a common lock body, designs within this range use common fixings and industry standard machining details offering fabricators the option to stock and fit multiple styles using the same processes.

ADVANTAGES

Latch and deadlock all in one standard model offering end users flexible security options.

Polesium™ and 316 Marine Grade Stainless Steel options offering high resistance to corrosion in aggressive environments such as sea front buildings.

All handles have symmetrical design. An important feature with four lite doors where locks meet and can be used for both left and right handed applications.

Utilise the Doric cartridge cylinder system which makes re-keying or changing cylinders quick and easy.

All locks form part of the Doric One Key™ solution and can be keyed alike to other window locks.

Meets AWA ICP002-720 hour corrosion resistant test.
