

Cable Window Restrictor SS0006

REQUIREMENTS

- Each year more than 50 children fall from windows or balconies in Australia. Many suffer serious injuries while some of these falls are even fatal.
- The child window safety requirements for owners' corporations have applied since 11 December 2013, but if the requirements have not been met by 13 March 2018, owners corporations will risk being fined.

FEATURES

- Easy to install versatile window cable restrictor.
- Suitable for all window types and materials.
- Tested to exceed the 250N requirement as stated by the strata act and the BCA.
- Enables the installer to restrict a window opening to less than 125mm.

By law, all strata buildings in NSW must have window safety devices installed in all common property windows by **13th March 2018.**
