

DR2210

MULTI-PURPOSE HEAVY DUTY
ADAPTABLE ROLLER

A heavy duty patio door roller adaptable for a range of residential and commercial doors.

The DR2210 roller is a multi-purpose heavy duty patio door roller designed in Australia by Doric's engineering team to suit residential and commercial aluminium and uPVC sliding doors in high performance capacity.

Manufactured with an engineered polymer outer carriage housing and cast passivated black aluminium inner carriage, this adjustable roller offers superior corrosion resistance and durability.

The DR2210 roller provides "ZZ" bearing performance rating and is moulded with a high performance engineered polymer that gives excellent load rating and cycle testing.

Additionally, the aluminium inner carriage has been designed to provide greater cover and protection to the wheels, helping avoid chipping and other damage occurring prior to installation.

PRODUCT DETAILS

OUTER CARRIAGE	Engineered polymer
INNER CARRIAGE	Cast passivated black aluminium
TYRE	DR78 high performance polymer with "ZZ" bearing and dust seal.
FINISH AVAILABLE	Mill Finish Black
MAX LOAD CAPACITY	100kg per carriage

TESTING

CYCLIC TEST

Product operation tested to 30,000 cycles

SALT SPRAY TEST

Tested for corrosion resistance

ADVANTAGES

Suits aluminium and uPVC sliding doors

Fully adjustable carriage gives 10mm height adjustment with Stainless steel adjusting screw and nut

Outer carriage and internal assembly manufactured to withstand corrosive environments

High performance roller with corrosion resistant ground precision "ZZ" bearing and dust seal

Cast passivated black aluminium inner carriage designed to protect wheels and minimise damage prior to installation

Recommended for larger sliding doors up to 200kg

Unique multi-fit end caps

DIMENSIONS

DR2210-14

DR2210-17

HOW TO ORDER

PRODUCT	END CAP	WHEEL	WEIGHT RATING	ORDER CODE
DR2210-14	14	DR78	100kg max load	9108828
DR2210-17	17	DR78	100kg max load	9110028
