# DS1 | CHAINWINDER

The DS1 is the most durable single window winder in the market, complete with innovation. Designed for use in residential and commercial applications, this product changed the way in which awning windows are specified.

The DS1 Chainwinder allows for easy operation and installation, and available in either a secure key lockable configuration, or non-keyed version. Combined with a stylish and easy to use slim fold down lever, this product delivers ultimate window control.

The DS1 Chainwinder can be pre-restricted where compliance is required with the NCC and 'Kids Don't Fly'.

## FEATURES

- Inbuilt Restriction Switch to easily restrict chain length where window restriction is required
- Allows you to clearly see if the winder is in the locked or unlocked position
- Easylink - a simple one way fitment to simplify installation reducing installation time

## ADVANTAGES

- Designed to compliment the shape of the winder. Simply pull to fold down
- Can be keyed alike to other Doric window or door products
- Handle can be orientated to match other winders in the house. Simply loosen handle grub screw and re-secure handle in the desired position

## PRODUCT DETAILS

<b>MATERIALS</b>	Polesium™ base & housing, Stainless steel chain standard
<b>FINISH</b>	Powder coat
<b>CYLINDER</b>	DS125 - 5 Disc Wafer DS126 - 6 Disc Wafer DS127 - Multi Key Cylinder
<b>KEYING</b>	Keyed alike or keyed to differ #27001 - #27020

## COLOURS

## TESTING

- Cycle tested on a 30kg window to over 30,000 cycles
- Tested and surpassed ultimate chain pull test achieving 3403N
- Tested and surpassed Neutral Salt and Spray test under AS-2331

# DS1 SAL | SPECIAL ACCESS LEVER CHAINWINDER

The DS1 with a Special Access Lever handle makes the most durable single window winder in the market, accessible to more people.

It's the ideal hardware component that allows users with limited dexterity and strength to more easily open windows.

The DS1 Special Access Lever (SAL) features the inclusion of a spherical grip handle onto the market leading DS1 Chainwinder. The versatile SAL can also be fitted to the DS2 & DN400 Twin Chainwinder.

## FEATURES

- Larger designed spherical grip handle for those with limited dexterity and strength
- Inbuilt Restriction Switch to easily restrict chain length where window restriction is required
- Allows you to clearly see if the winder is in the locked or unlocked position
- Easylink - a simple one way fitment to simplify installation reducing installation time

## ADVANTAGES

- Designed to compliment the shape of the winder. Simply pull to fold down
- Can be keyed alike to other Doric window or door products
- Handle can be orientated to match other winders in the house. Simply loosen handle grub screw and re-secure handle in the desired position

# DN400 | TWIN CHAINWINDER

The DN400 Twin Chainwinder is the ultimate window control for large awning windows designed for use in both residential and commercial applications.

The DN400 Twin Chainwinder allows for easy operation and installation it features slim fold down lever, compatible with the SAL lever design and available in either a secure key lockable configuration and a non-keyed version.

The DN400 Twin Chainwinder can be pre-restricted in order to comply with the NCC and to meet the requirements of 'Kids Don't Fly'.

## FEATURES

- Stainless steel chain for corrosion resistance
- Removable chain from sash plate to aid installation and to assist in cleaning – “Chain Secure”
- Simple fold down lever which can be oriented to match all other winders

## ADVANTAGES

- Chain pitching offers greater control for larger windows
- Smooth, effortless operation and control for large awning openings
- Window restriction compliant in association with Kids Don't Fly

## PRODUCT DETAILS

<b>MATERIALS</b>	Zinc die-cast housing, Stainless steel chain standard
<b>FINISHES AVAILABLE</b>	Black, White, Silver & custom colours on request
<b>CYLINDER</b>	DS94 - 6 Disc Wafer DS187 - 4 Pin Cylinder DS187/1 - Multi Key Cylinder

## COLOURS

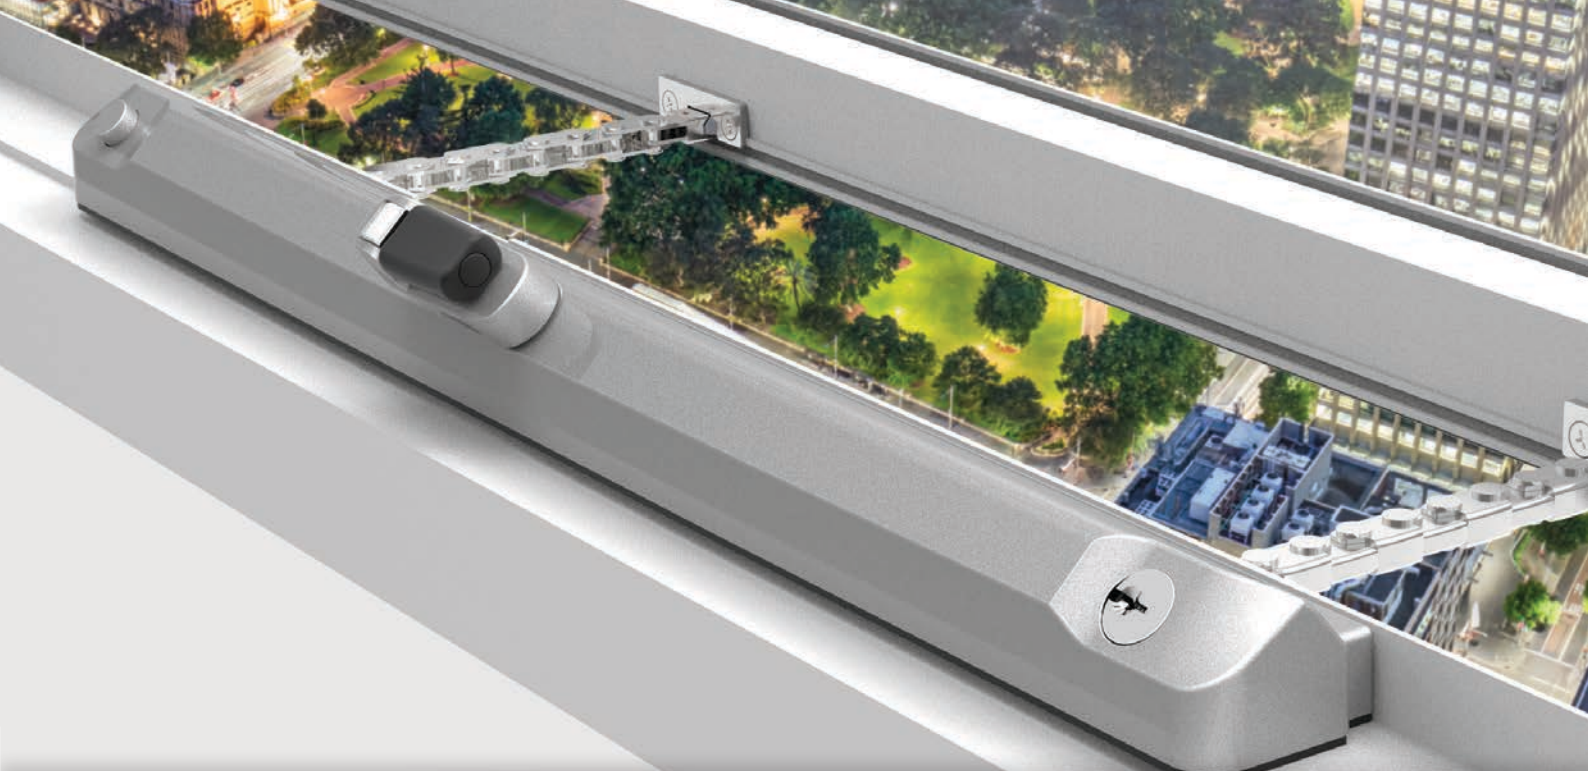

## TESTING

- Tested & surpassed over 5000 pascals of negative pressure
- Tested and surpassed Neutral Salt and Spray test under AS-2331.31
- The DN400 does not have a weight or load rating. Will easily operate within a sash up to and beyond 100kg when used in conjunction with the Doric Heavy Duty Stainless steel stays or any continuous hinge framing system.

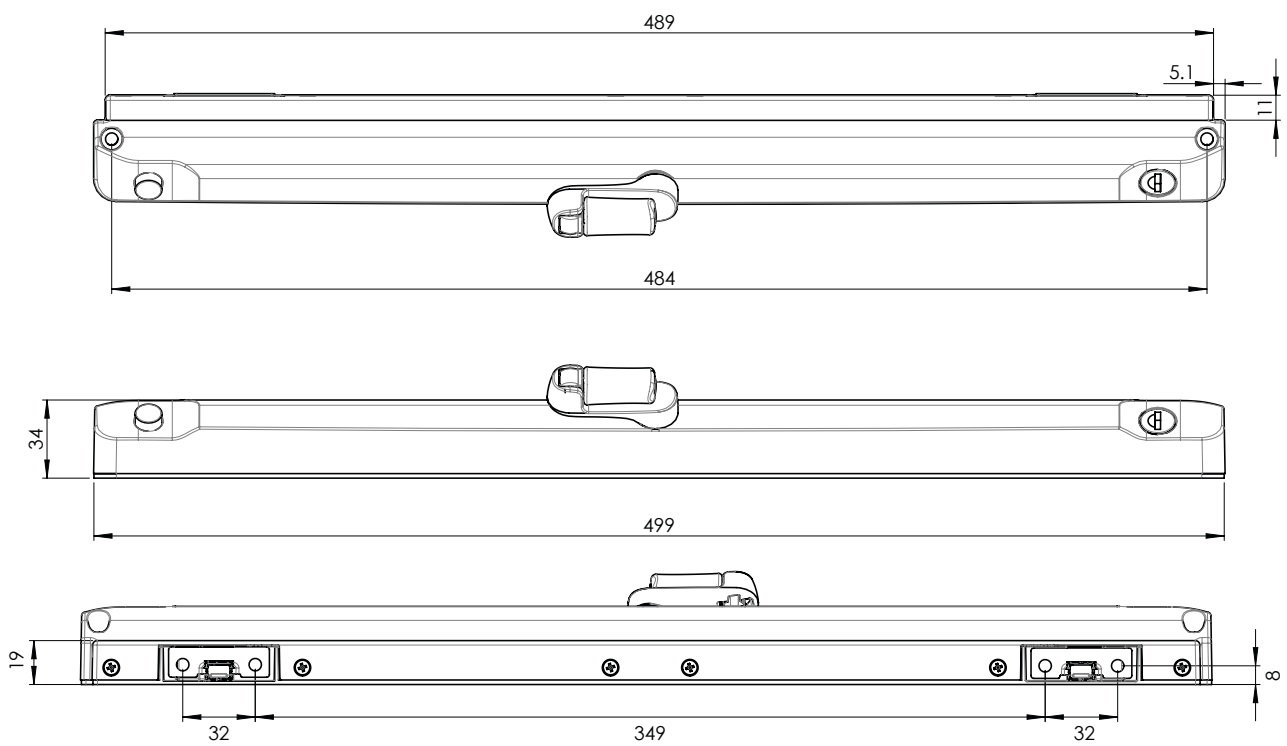

## HOW TO ORDER

## DIMENSIONS

# DN450 | MKII TWIN CHAINWINDER

The DN450 MkII Twin Chainwinder improves upon Doric's DN400 Twin Chainwinder, boasting new features for superior awning window control.

Made with an extruded aluminum body, it seamlessly blends into any environment and surpasses corrosion resistance standards. Its adjustable chain restriction makes it adaptable for residential and commercial use, meeting NCC standards and ICP 005 compliance.

## FEATURES

- Stainless steel chain for corrosion resistance
- Easylink - a simple one way fitment to simplify installation reducing installation time
- Simple fold down lever which can be oriented to match all other winders

## ADVANTAGES

- Larger chain pitching (600mm) allows the chain to be mounted closer to the corners of a window
- Adjustable Chain Restriction - Limit Openings From 110mm To 265mm
- Window restriction compliant

## PRODUCT DETAILS

<b>MATERIALS</b>	Extruded aluminium body, Zinc & Polesium™ Fold Down Lever Stainless steel Chain & Sash Plate

# OMEGA | DS5500 AWNING OPERATOR

The Omega Awning Operator by Doric is an advanced solution tailored to meet the increasing popularity of awning windows, while also enhancing operational efficiency. With its Push & Pull operation, it reduces the time needed to open or close awning windows by half.

Available in 90mm or 150mm arm lengths, the Omega is designed for residential applications, with the 90mm arm specifically catering to compliance with NCC and "Kids Don't Fly" window restriction requirements.

## FEATURES

- Cylinder drives hidden lock bar, which in turn locks off the push button mechanism to prevent tampering
- Available in either keyed or non-keyed options. Suitable with Doric's DS125, DS126 & Multi-Key wafer cylinders.
- Available in both restricted & non-restricted variants

## ADVANTAGES

- Push button mechanism improves functionality by halving the time to open or close an awning window.
- Smooth, effortless operation and control for large awning openings
- Window restriction compliant

## PRODUCT DETAILS

<b>MATERIALS</b>	Polesium™ Cover & Base, Polycarbonate Arm with SS 304 sash plate.
<b>FINISHES AVAILABLE</b>	Standard Moulded Colours STD & Non STD Powder coat
<b>LENGTHS AVAILABLE</b>	90mm arm (Restricted opening) 150mm arm (Full opening)
